OUR SCHOOLS

White Teachers in Cclored Schools.

Washington, D. C. Oct. 16, '94. Editor of the Bee:

Will you advise me why a white teacher in sewing is appointed to teach colored pupils of the county schools? Don't you think D . Shadd might find some colored young lady skilled in this art to whom such an appointment could be given? Can you name an in stance when any colored lady has ben appointed to instruct white pupils in the public schools.

WHY DISCRIMINATE?

Washington, D. C. Oct. 16, '94 Editor of the Bee:

Can you advise one of your patrons why a married woman can Her husband is in jail here charged teach in the county schools and not in the city schools, and is there any rule against it; or properly I might make this inquiry: Why can mar ried women teach in the white schools and not in the colored schools, and if there is a rule aga net married women teaching in the public schools? Why is not the rule enforced? How do Mr. J. H. Voorbees and his wife Elizabeth (white) teach at the Benning schools; busband principal and wife assistant? How do Mrs. Hic ton and Mrs. Davidson, both mar ried women, teach in the white schools if there is a rule against it? How is it that Mrs. Hawkesworth, Mrs. Layton, and Mrs. Terrell (col ored), all married women, teach if there is a rule against it, and why, if a married woman makes an ap plication for an appointment to the colored trustees she is confronted with the proposition that the rules of the school board are against it, yet married women are now teach ing in both white and colored schools every day and some of them drawing large salaries? We labor under the impression or a delusion that the government is administer ed equally for the benefit of the whole people; that no discrimina tion is made; but is that true in the matter of the school interest of the District of Columbia, especially the colored schools? Appreciating the active interest your journal bas displayed in all matters pertaining to the good government of the Dis trict of Columbia, I suggest that public school administration opens

MITE USED BY ROBBERS.

A Train Held Up Near Washington-Nearly \$200,000 Taken. Washington, Oct. 15. - Washington was astounded Saturday morning to learn that seven masked men had held up a train within a few miles of the National Capital, had blown the side

of the Adams express car out with dynamite, and had captured \$150,000 or \$180,000, and had escaped on the engine with their booty, turning the engine loose with the throttle wide open to wreck its will upon any passing train. The train held up was the north-bound express train on the Richmond, Fredericksburg and Potomac Rallroad, leaving Richmond, Va., at

7 o'clock Friday night. The train left Fredericksburg at 8:58 'clock, on time. The robbery occurred near Aquia Creek, between Brooks Station and Wide Water, an exceedingly wild part of country entirely suited for the purpose. It is not known at what point the robbers boarded the train, and the first intimation anybody had that trouble was brewing was when two men jumped from the coal car down into the cab, and, levelling revolvers at the astonished engineer

The fireman and engineer were compelled to leave the engine and sit quieton the bank alongside the track. Then the bandits, who were seven in number and all disguised by masks or by handkerchiefs tied over part of their faces, made for the Adams express car, which was in charge of Mes-

and fireman, ordered them to stop the

senger J. S. Crutchfield. One of the robbers called to Crutchfield to open the door of the express car, and on his refusal the robber threw a stick of dynamite against it, which shattered the side of the car. Then one of the robbers compelled Crutchfield to open the safe, from which everything was taken, between \$150,000 and \$180,000.

By this time the passengers and trainmen were terrified, and after the booty was secured the bandits boarded the engine, uncoupled it from the of another. train and sped away in the darkness. The American They left the engine near Wide Water, and near Juantico it ran on a side track and was ditched. There is no clue to the thieves.

JERSEY'S LATEST GOLD MINE.

It is in Rahway and Will Doubtless Turn Out Like All the Rest.

Rahway, Oct. 15. — For some days Frank Cladek has been drilling a well on the premises of Charles Harned, of No. 150 Irving street. At a depth of forty-five feet, while drilling-through a stratum of shale and quartz, the workmen found numerous minute glistening yellow scales. At once it was noised about that gold had been struck, and there was a rush for the El Dorado. A number of men have examined the findings, and there is a division of opinion, some pronouncing it gold, and others a baser metal. is said the scales are not iron pyrites, a mineral commonly mistaken for gold. It is said to resist nitric acid and to be malleable. Mr. Harned has a large quantity of the mineral, and is in hopes that he has "struck it rich."

Better Off Without the Lords. London, Oct. 15 .- Sir George Trevelvan, Secretary for Scotland, addressed the Liberals of Glasgow Friday evening. He said the last Parliamentary session proved that the country would be better off without a House of Lords. The majority of Peers against popular measures was so overwhelming that there was no prospect of the Liberals carrying out their policy until the up-per House was reformed. The hostility between the two houses had bene open and permanent.

Mitchell: "Corbett-Fitzsimmons fight will not be allowed to occur in Florida, even if Legislature has to be convened for the purpose of preventing the fight. (Signed) H. T. Mitchell, Governor."

"OBSERVER" ALIAS C. R. DOUGLASS,

Mr. Charles R. Douglass, writing under the nomdeplume of "Observer" in a local contemporary last week, attempted to defend his and Lis father's position in their opposition to the confirmation of Mr. H. C. C. Astwood for Calais, France, by saying that the BEE states untruths; that Mr. Astwood stopped the BEE's little game with Recorder Taylor, and that the BEE did not know the difference between a diplomat and a consul; that his father has been the BEE's benefactor and he has received in return abuse.

Charles R. Douglass, as the pub lic knows, is a man full of deceit, prejudice and jealousy.

His pen has been turned against every man of prominence whom he thought was in his father's way. To speak well of a public man is just as foreign to Mr. C. R. Donglass as Greek is to an African heathen, Mr. Frederick Douglass has not at any time been a benefactor of the BEE and the BEE has never teen under any obligation to the Douglass family nor any public

The BEE still maintains that Mr. C. R. Douglass and his father caused the defeat of Mr. Astwood for Calias, France, and also for the San Domingo mission under the Harrison's administration and it was on account of the inward jealousy of Mr. Douglass.

No one has tried to run the recorder's office more than C. R. Douglass and his father, so much so that Mr. C. R. Douglass was disappointed after he bad been reduced in his position in the Pension office, when he failed to receive the promised appointment to a position in the Recorder's office and of deeds to have C. R. Douglass ring aristocracy in the schools. A the failure of the present recorder is this same U. R. Donglass, who has, ever since his domicile in this city attempted to put the blacks against the brights and every opportunity he has he can be found in the company of a half white colored lady, especially when he can find one to associate with him. Who made the attack on George T. Downing? To whom did Mr. Douglass appeal not to expose him? By whose instigation was Hon. Robert Purvis attacked? Will Charles R. Douglass answer these questions?

President Cleveland through the instrumentality of Mr. Taylor nom inated Mr. Astwood for Calais, France, and urged his friends in the Senate to confirm him and Mr. Donglass filed a set of dirty and malicicus charges against bis confirmation. No one was more persistent in their opposition to Mr. Astwood than Mr. Douglass and bis father; no two men demonstrated to the world the littleness of a supposed great man and the demogoguery of a small one.

The Bee has criticised the public acts of the Sage of Anacostia, and not under cover like Charles R. Douglass has attacked public men whom he thought were inimical to his father and the house of Douglass. Mr. Cleveland, although a Democrat, showed that he was not opposed to the Negro by the nom! nation of Mr. Astwood and Mr. Taylor to two places never before represented by Negroes.

Mr. Cleveland was not responsible for the action of the Senate; he was not responsible for the charges filed against Mr. Astwood by Mr. Douglass. The Democratic Negro has been his own enemy; he has dug his own grave and with the assistance of Mr. Douglass one was defeated.

No one has attempted to dictate the patronage of the recorders office more than Mr. Douglass. 'The very first appointment in the office was made on the recommendation of Mr. Frederick Douglass.

Yes, Mr. Astwood made a mistake when he attacked Mr. Cleveland, and the Bee is bonest and frank

enough to tell him.

Bee?

trary he has always, more or less, opposed the Bee and its editor, and so vindictive was his opposition be corrupt school trustees were com pelling teachers to sacrifice their honor and who were exposed and removed on the charges of the Bee.

There is but one man who helped the editor of the Bee in the hour of need, not financially, and he has held positions above any Nogro who now live.

In the hour of need Mr. Frederick Donglass held the Bee up to the world in contempt and scorn and with all of the combined opposition of the Dougl 88's

The Bee still lives and reigns To oppose honors to un merited gains.

EDITOR CHASE VICTORIOUS.

This was the caption of an article that appeared in the Colored American last week. Mr. E. E. Cooper is the ed-itor of that paper and the author of that

To the public eye and to those who don't understand the motive and the man would naturally conclude that it was a compliment to the editor of the BEE. Mr. Cooper didn't write the article for that purpose, he meant to place Recorder Taylor in a false position and injure the BEE.

If the editor of the American was as true and honest with the BEE as the BEE has endeavored to be with him, he would not have published that article. No man who professes the friendship for one as the editor of the American pretends to have for the BEE would be

guilty of such treachery.

The wiry editor may have the faculty of deceiving some people, but he cannot play the Judas Iscariot with the BEE. The BEE runs bot one office and BEE. that is its own. It is under no obligation to any man, and no one is under

any obligation to it. The BEE wants the American to understand that that is not the way to compliment a friend. What he alleged in his article is false and malicious, and it eminates from a treacherous mind.

HILL'S DEFEAT.

The general outlook in New York State is that David B. Hill will be defeated by a larger majority than he was elected governor three or four years ago. As long as the Tammany organization exists so long will there be corruption in New York politics. The colored democrats are not so enthusiastic in their support of Mr. Hill and his Tammany organization as they have been. They are more in sympathy with the Cleveland democracy.

DISCRIMINATION.

Certainly the trustees of the colored schools don't mean to discriminate against one class of married fadies in tavor of another.

The BEE doesn't believe there is a woman who leaves school and marries COLL has a right to teach if she is not barred by family ties. Still, the BER is of the opinion that the correspondent to the BEE this week is right in his con clusions.

If one class of married women have a right to teach certainly another class should be given the same privilege.

OUR NEIGHBOR.

The editor of the American, Mr. E. E. Cooper, saw fit last week to say that the BEE was running the Recorder's Office, because the recorder informed Mrs. Gussie Henderson that her furlough had expired and she could return to work. Mr. Cooper is no doubt aware that one of the employees of his office has been an applicant for a position in the Recorder's Office for some time, and his article last week relative to Mr. Taylor was written for no other purpose than to place the recorder in a false While the editor of the American

compliments the ladies in his article, it shows personal animus and jealcosy. The editor of the American knew what was going on, why is it that he at

this late moment wants to misrepresent the position of the BEE? No one is running the Recorder's Office. Taylor is Recorder of Deeds, and no one knows it better than the editor of the American.

The American is only afraid that the BEE may get some of the patronage of the office and thus knock its next door neighbor out.

The Recorder has never given the BEE one cent; can the American say as

Mr. Charles R. Douglass ought to know that the Bee has never asked his papa any favors.

ganization of the American Liberty Defence , eague. In order to aid this agustion, broaden and make thoroughpapa any favors.

In the hour of need Mr. Douglass' papa turned the BEE down, and one of the greatest negroes living and the next member of the republican cabinet, came to his rescue.

Some people have an idea that a public man cannot be criticised without being abused.

When Mr. Charles R. Douglass wrote those abusive articles against certain representative men, was it for the publie good or was it to satisfy the vindictiveness of Mr. Douglass ?

The BEE wants to see Miss Emma Mr. Douglass a benefactor of the Smith reinstated in the schools. She was displaced because she refused to When has Mr. Douglass assisted play the organ free in a certain church the Bee in anything? To the con- in this city.

A GREAT PAPER

The citizens of Washington will, in a wrote a public card against the few days, have a great paper. THE AMERICAN LIBERTY DE FENCE LEAGUE

R. C. O. Benjamin, President. J. B. Colbert, Vice-President. James E. Johnson, Secretary. J. H. Ballou, General Counsel. George Henry, Treasurer.

The international agitation now going on in regard to outrages committed upon colored Americans in the South ern states, renders imperative the orly effective the work of the Interna-tional Committee already appointed to investigate the matter, this League is formed. The work which the League has un-

dertaken is: 1st To encourage and assist Miss Ida B. Wells in her anti-lynching crusade by seizing the opportunity while public attention is directed to the subject to keep some one in the field to agitate and

emphasize our demand for justice.

2nd. To publish necessary literature and statistics for distribution.

3rd. To keep detectives in the field to investigate every lynching, get the Negro side of the stories, and the real facts for our English friends, our Northern sympathizers, and for our Northern sympathizers, and for ourselves; to employ counsel to defend those charged with heinous offences, and secure the conviction and punishment of those who participate in lynch-

OUR DUTY.

Never since the agitation of the abo-

lition of American slavery has there een a period fraught with such serious consequences, as now confront the friends of humanity and believers in Crusade; an issue with which the American people must deal and settle once for all. The abominable cruelties of mob law and lynching have become National problems, and it seems that the time has come when every good citizen must enter his protest against the exhibition of this violent barbarity, assert themselves, exert their best en-deavor to maintain the dignity and maesty of the law, and demonstrate to the civilized world that the American Government is in reality a government

of the people, by the people, and for the people, and for all the people. THE END IN VIEW.

To the end that this agitation may be conducted in such a way as that full light may be thrown upon all the facts involved, we propose to org nize around the League a sustaining constituency to do the proper work. For instance: Two colored men, near Alexandria, Virginia, were charged with the crime of assault on two white women. They were arrested and placed on trial; the case was prejudged by the community, and a mob of armed men organized to overawe the court and jury, and deny to the accused the right of a fair trial. The State militia were ordered out to convey the two colored men to and from the court-house, the result was the ex-ecution of the men without any legal evidence of their guilt. All this hap-pened under the very shadow of the National Capital. If the American Liberty Defence League had been in existence, the case, instead of being one of local color-line-Democratic-pelitics, would have assumed national proportions; a fair trial secured to the ac cused; the ablest legal ability at the Northern bar would have been employed to defend the men; reporters from the Metropolitan press especially commissioned would have been present Able and experienced detectives, thoroughly skilled in ferreting out all hidden motives and facts in regard to crime, would have been employed to ascertain the character of the women who were the accusers, whether or not they were professional harlots; the character of the house they kept; the frequenters of that house; if they were criminally intimate with any members of the armed mob, etc., etc. With such an exhibition of legal vigilance in protecting the helpless, the Virginia affair would in all probability have turned out very different. The purpose of this League is to apply all over the South the principles and policy of such a vigi lant and tireless activity as to render the repetition of the Virginia infamy

impossible THE POLITICAL PHASE

The League also proposes to furnish indisputable testimony, that, while allowing for the ferocity born of the spirit of slavery, nevertheless, the animating motive and significance of these South-ern outrages is Political. The political motive and incentive to these outrages does not embrace merely local politics : it does not mean alone the election of "color-line" Justice of the Peace, color-line sheriff, color line educational committee, color line members of the legis lature, color line governors and like lo cal and State officers,-it embraces the whole field of national political action. It embraces 159 solid votes in the electoral college. It embraces a color line legislative majority in both branches of Congress It embraces a color line president of the United States. It embraces a solid South representation as such in his cabinet. It embraces a rep-resentation in the United States Supreme Court, where color line solid South judges will hold the same relation to Negro suffrage which Judge Taney of the Dred Scot and Missouri compro mise, held to chattle slavery and solid color line Democracy. Without these propelling motives the solid South could not exist for a day; upon these the whole colossal political fabric is reared, from Missouri to Florida and from Delaware to Texas. It is this solid South coalition which has elevated a color line political leader to the American presidency, which now controls every department of the Federal Government; and which, in the face of a divided North, threatens the life of the Re pu' lic i self. For tyranny through law cannot be enthroned upon the pro trate form of black humanity at the South without so affecting and deadening the National conscience as finally to set the heel of a relentless military despotism on the necks of the white wage slaves of the North.

It is claimed that that was lookouts. It is claimed that that was not the first accident due to the care-lessness of this man Ross, and the very fact that the United States inspectors hold him responsible is more than a sure indication of his guilty act. For 21 years Mr. Rogers was the sexton of the New York Avenue Presbyterian Church H. was loved and respected by the most prominent citizens of wash. by the most prominent citizens of washington. ARTISTIC DRESSING.

Tailor made costumes seem to be the sole preoccupation of the greatest Parisian dressmakers.

For the street the sleeves are not as voluminous around the shoulder as they used to be although they sill retain their volume a little lower down.

Some of the lovliest cos umes have the shoulder piece and sleeve in one piece laid on in plaits from the collar.

Reception costumes of course always demand a certain elegance, but still they are not trimmed as much as they were once. The goods mostly in demand are the

Some very rich capes are the long capes called mantes, which are generally made of brocade, bengaline or fur, also velvets, trimmed with fur.

The newest hats are the cabriolet (1830) with high flaring brim, underneath which is a trimming of roses, jet crown or jet ribbon bows.

Toques will be in vogue, entirely composed of the soft peacock down and have as sole trimming a multi-colored bird on the left side.

Another pretty style is the toque com-posed of two Valkyrie wings in front and two in the back, which, with a small draped crown of velvet of con-trasting shade, makes this an exquisite

Plaid and Persian effects will be highly favored, the latter especially for dressy blouses and tea gowns.

For theatre wear, silk wasits are bound to be more popular this season than ever. They are being produced in many different effects. Light change-able silks, having a frosted effect, are shown for this purpose.

SIDE TALK TO GIRLS.

Don't get jealous because another girl looks better than you or is doing as well as you.

It is the foolish woman who tells a man all that is told to her, especially when it is uncomplimentary about

others. Watch the woman who talks about another on the sly and then grins in her face; she is as vile and treacherous as

It is generally the corrupt woman who wants to know if every woman is "nice" as soon as she meets them.

An honest woman is not half so suspicions as a corrupt women. Her mo-tives are pure and to keep them so she hasn't time to question others purity.

It is not in good taste for ghis to become intimate, for woman is naturally deceitful.

A LIBERAL ORGAN OFFER.

That there has been a revolution and the manufacture of Organs and Pianos is evinced by the current offer of Cornish & Co., the well known manufact-urers of Washington, N. J. Since the conception of this great business, nearly thirty years ago, they have been fighting the method of dealers, their plan being to give the enormous profits usually retained by the tradesman to the buyer. Woods are thick with hunters at night, who shoot with utter recklessness. Half a dozen settlers have been wounded by stray shots. An effort will be made to bar

these hunters out of the State.
